entitled “The future we want”⁷, as well as the outcomes of all the major United Nations conferences and summits in the economic, social and environmental fields,

Recognizing existing obligations and commitments under international environmental law,

Reaffirming all the principles of the Rio Declaration,

Reaffirming also its resolution 70/1 of 25 September 2015, entitled “Transforming our world: the 2030 Agenda for Sustainable Development”, in which it adopted a comprehensive, far-reaching and people-centred set of universal and transformative Sustainable Development Goals and targets, its commitment to working tirelessly for the full implementation of the Agenda by 2030, its recognition that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development, its commitment to achieving sustainable development in its three dimensions — economic, social and environmental — in a balanced and integrated manner, and to building upon the achievements of the Millennium Development Goals and seeking to address their unfinished business,

Noting the convening of the high-level event held on the sidelines of the seventy-second session of the General Assembly on 19 September 2017, entitled “Summit on a Global Pact for the Environment”,

Stressing the need to continue to address, in a comprehensive and coherent manner, the challenges posed by environmental degradation in the context of sustainable development,

1. *Requests* the Secretary-General to submit to the General Assembly at its seventy-third session in 2018 a technical and evidence-based report that identifies and assesses possible gaps in international environmental law and environment-related instruments with a view to strengthening their implementation;

2. *Decides* to establish an ad hoc open-ended working group, under the auspices of the General Assembly, to consider the report and discuss possible options to address possible gaps in international environmental law and environment-related instruments, as appropriate, and, if deemed necessary, the scope, parameters and feasibility of an international instrument, with a view to making recommendations, which may include the convening of an intergovernmental conference to adopt an international instrument, to the Assembly during the first half of 2019;

3. *Also decides* that the ad hoc open-ended working group shall be open to participation by all States Members of the United Nations and all members of the specialized agencies;

4. *Further decides* that attendance at the sessions of the ad hoc open-ended working group as observers will be opened to relevant non-governmental organizations in consultative status with the Economic and Social Council in accordance with the provisions of Council resolution 1996/31 of 25 July 1996, as well as to those that were accredited to relevant conferences and summits,⁸ on the understanding that participation means attending formal meetings, unless otherwise decided by the working group in specific situations, receiving copies of the official

⁷ Resolution 66/288, annex.

⁸ Reference is made to the non-governmental organizations that were accredited to the following relevant conferences and summits: the United Nations Conference on Environment and Development, the World Summit on Sustainable Development, the United Nations Conference on Sustainable Development and the United Nations summit for the adoption of the post-2015 development agenda.

6. *Requests* the President of the General Assembly at its seventy-second session to appoint two co-chairs of the ad hoc open-ended working group, one from a developing country and one from a developed country, to oversee its consultations, in regular coordination and consultation with all Member States, regional groups and all relevant stakeholders, and underlines that the work of the working group must be open, transparent and inclusive;
